

Construction without the unexpected

Gain peace of mind when managing teams and subcontractors

With PlanRadar, go from countless emails and undocumented phone calls, to one central platform for all team collaboration and project oversight.

With all team deliverables in one place, in just a few clicks you can find the status of open tasks, understand resource allocations and identify delays.

Equip yourself with a platform to avoid surprises and gain full project clarity.

“PlanRadar allows us to share information across all of our teams instantly, and when people have the information they need, they're empowered to make the right decisions.”

Alex Banks, Head of Project Delivery, Innovaré

Why choose PlanRadar?

Quick setup

Get started immediately using our intuitive app. Onboard full teams in less than a week.

Simple task management

Delegate tasks, set deadlines and keep track of status in easy-view dashboards.

Centralised collaboration

Manage all communication in PlanRadar, with everything tracked in a digital audit trail.

Easy to use

A software your site teams can learn, use & love - 91% of subcontractors agree PlanRadar is easy to use.

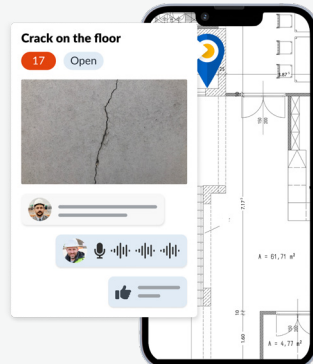

5 simple steps for seamless team oversight & subcontractor management

1

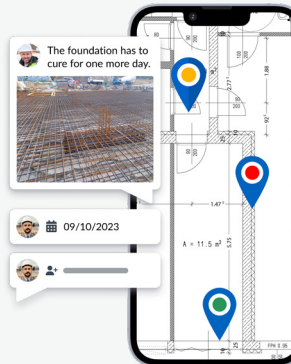

Track all tasks,
directly on-plan

2

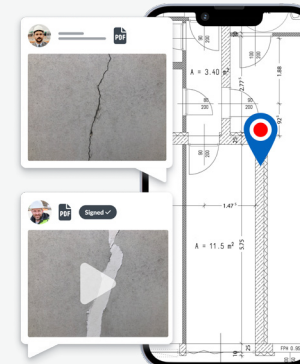

Add photos, video
& voice notes, for clear
communications

3

Delegate tasks, set deadlines
and easily monitor the status
of tasks to ensure they're
on track

4

Communicate using in-app
chat, with all conversations
stored in a digital audit trail

5

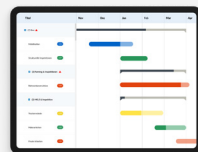

Monitor project progress,
identify delays early
and reallocate tasks based on
resourcing to keep projects
on track

Full construction management in one platform
