

Save time & money with PlanRadar

Digitise task management, documentation
and communication on projects to drive cost savings

Calculate your saving at planradar.com/pricing

-  Onboard in less than 10 minutes
-  ISO Certified & GDPR compliant

A digital platform to drive your business to the next level

Empower on-site teams

Give your team the tools to get their job done fast. With a 10-minute setup and an easy-to-use mobile app, defect management, inspections and maintenance become a breeze.

Flexible for all use cases

PlanRadar adapts to the way you work, not the other way around. Collect and report data the way that works best for your team.

Integrate with tools you already love

PlanRadar Connect enables pre-built, no-code integration with 200+ applications. Set up work process automations in as little as 30 minutes.

Insights for a competitive edge

Easy-view dashboards allow teams to identify project opportunities & issues early and take quick action to keep projects on-track.
